Baillière's Students' Books

ROSE & CARLESS' SURGERY. 16th Edition, published August, 1940.
Editors: Wakely and Hunter. 2 Vols. 30s.

"We have nothing but praise for this edition. . . . We have no hesitation in recommending it to students and practitioners."—BRITISH MEDICAL JOURNAL.

GREEN'S PATHOLOGY. 16th Edition, published March, 1940. Revised
by H. W. C. Vines, M.D. 31s. 6d.

"The student will find in this abundantly illustrated and eminently readable textbook all the pathological information he is likely to need."—THE LANCET.

BEST & TAYLOR'S PHYSIOLOGICAL BASIS OF MEDICAL PRACTICE.
Second Edition. 55s.

"A really adequate reference book on the present position of physiology in relation to medicine."—BRITISH MEDICAL JOURNAL.

FRAZER & ROBBINS' PRACTICAL ANATOMY. Vol. I: Limbs and
Abdomen. Vol. II: Thorax, head & neck, central Nervous System, Eye & Ear.
Each vol. 12s. 6d.

"Admirably adapted to meet the requirements of both junior and advanced medical students."—BRITISH MEDICAL JOURNAL.

BUCHANAN'S ANATOMY, including Embryology. 6th Edition. Edited by
J. E. Frazer, D.Sc., F.R.C.S. 37s. 6d.

"We can confidently recommend this book, not only as a reliable and helpful guide through the dangers of the examination room, but also as a simple and practical book of reference throughout professional life."—BRITISH MEDICAL JOURNAL.

FRAZER'S EMBRYOLOGY. 2nd Edition, published July, 1940. B. J. E.
Frazer, D.Sc., F.R.C.S. 30s.

"There is a vividness in presentation and a freshness in description characteristic of all the author's work, and the direct outcome of his individual research and observation."
—THE LANCET.

BIGGER'S BACTERIOLOGY. 5th Edition. By J. W. Bigger, M.D. 13s. 6d.

"One of the best books available for students of bacteriology."
—JOURNAL OF PATHOLOGY AND BACTERIOLOGY.

ALLEN'S DISEASES OF INFANTS AND CHILDREN. 2nd Edition.
By F. M. B. Allen, M.D., F.R.C.S. 18s.

"Excellently balanced. Represents a refreshing departure from pseudo-scientific Systems."—THE LANCET.

WHITLA'S PHARMACY, MATERIA MEDICA AND THERAPEUTICS.
13th Edition. By J. H. Burn, M.D., and E. R. Withell, B.Sc., B.Pharm.
12s. 6d.

"A very valuable revision of this long-known book . . . at once comprehensive in its scope and concise enough without being inadequate for examination purposes."—PRESCRIBER.

MAY & WORTH'S DISEASES OF THE EYE. 8th Edition. Revised by
Montague L. Hine, M.D., F.R.C.S. 16s.

"A concise and practical survey of the main principles of ophthalmic medicine and surgery."—THE LANCET.

HANDBOOK OF FIRST AID & BANDAGING. By A. D. Belilios, M.B.,
B.S.; D. K. Mulvany, M.B., B.S.; & K. F. Armstrong, S.R.N., S.C.M. 4s.

"Undoubtedly one of the finest books on the subject that has been produced."
—NURSING MIRROR.

And the STUDENTS' AIDS SERIES 3s. 6d. to 8s.

Several New Titles and New Editions.

(Note that all volumes in the Students' Aids Series, and the Nurses' Aid Series, as well as Baillière's Nurses' Complete Medical Dictionary, are increased in price by 6d.)
